

VDO RoadLog™ Office Solo

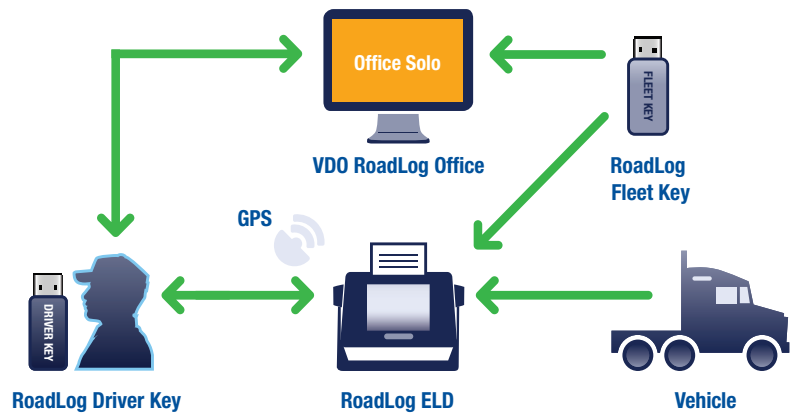

VDO RoadLog Office Solo is the ideal ELD solution to enable owner operators and smaller fleets to become compliant with the upcoming ELD mandate. Solo provides several core components for compliance: Hours of Service (HOS), State mileage reporting (IFTA/IRP), and Pre/Post Trip Inspection Reports (DVIR).

All with no monthly fees.

How Solo Works

Compliance data is collected by the RoadLog ELD and periodically manually downloaded to the Driver Key (USB). Each driver in the fleet will require a Driver Key.

The Driver Key can then be taken to any computer with internet access and a USB port to upload the compliance data to the VDO RoadLog Solo web portal. The Solo portal then compiles, audits, and archives a fully compliant record that's available anywhere you have internet access.

Here are the 4 components you will need to implement Solo:

1. RoadLog ELD (3290-10100101) one for each Vehicle.
NOTE: If you might be interested in automatic log data transfer, real-time tracking, and Fleet management features in the future, we recommend purchasing the RoadLog ELD Plus (3290-20100101) at a slightly higher price. You can use the ELD Plus with Solo today, then simply contact Continental VDO directly to upgrade when you're ready.
2. Fleet Key (3290-90030200) – One Fleet Key is required per company. The Fleet Key is used to setup the VDO RoadLog Unit(s) in the Vehicle(s). Purchase of the Fleet Key also provides the Activation License for the first Vehicle in the fleet.
3. Driver Key (3290-90030100) – One Driver Key is required for each Driver.
4. Installation Kit – One per Vehicle.

IMPORTANT: This cable needs to match the diagnostic port in your Vehicle.

Most Vehicles use one of these 4 kits	<ul style="list-style-type: none">– 6 pin Y Install Kit (3290-90100400)– 9 pin Y with Flange Green Install Kit (3290-90101300)– 9 pin Y with Plastic Nut Green Install Kit (3290-90101400)– 16 pin Y OBDII Install Kit (Volvo/Mack 2014 or later) (3290-90101100)
Other available kits	<ul style="list-style-type: none">– 6 pin Direct Install Kit (3290-90100200)– 9 pin Direct Install Kit (3290-90100100)– 9 pin Direct Green Install Kit (3290-90101200)– 16 pin Direct OBDII Install Kit (Volvo/Mack 2014 or later) (3290-90101000)– OBDII Light-Duty Streamer Install Kit (3290-90100900)– Open End Install Kit (3290-90100800)

One Activation License is included with the Fleet Key. If you have more than one Vehicle, you will need a one-time Activation License for each additional RoadLog ELD (\$60 per additional ELD, purchased directly from Continental VDO at time of setup and registration). This one-time activation fee is tied to the RoadLog ELD itself and is transferable from one Vehicle to another if a Vehicle is sold or removed from the fleet.

Sample Solo Orders:

One Truck Owner Operator

- (1) RoadLog ELD or RoadLog ELD Plus Unit
- (1) Fleet Key
- (1) Driver Key
- (1) Installation Kit

Five Truck Fleet with 7 Drivers

- (5) RoadLog ELD or RoadLog ELD Plus Units
- (1) Fleet Key
- (7) Driver Keys
- (5) Installation Kits
- (4) Activation Licenses

RoadLog Solo Ordering Worksheet

	Part Number	Quantity	Cost Each	Total
 RoadLog ELD (or ELD Plus)	3290-10100101 (ELD) (ELD Plus part number is 3290-20100101 for future upgrades)	1 per Vehicle: _____	\$ _____	\$ _____
 RoadLog Fleet Key	3290-90030200	1 per Company: 1	\$ _____	\$ _____
 RoadLog Installation Kit	3290-90100800 3290-90100200 3290-90100400 3290-90101200 3290-90101300 3290-90101400 3290-90100900 3290-90101000 3290-90101100	1 per Vehicle: _____ _____ _____ _____ _____ _____ _____ _____ _____	\$ _____ \$ _____ \$ _____ \$ _____ \$ _____ \$ _____ \$ _____ \$ _____ \$ _____	\$ _____
 RoadLog Driver Key	3290-90030100	1 per Driver: _____	\$ _____	\$ _____
			Total hardware cost:	\$ _____

If you are outfitting more than one Vehicle, a one-time activation license is required for each additional Vehicle. This activation is purchased directly from Continental VDO when you register your account and set up your Vehicles in the web-based software portal. In summary, your total cost for implementing RoadLog includes the total cost of hardware you purchase from your dealer, plus the total cost of the Activation Licenses you purchase directly from Continental VDO.

	Quantity	Cost Each	Total
RoadLog Activation License(s)	1 per Vehicle (beyond 1st vehicle) _____	\$60	\$ _____
		Total cost:	\$ _____

Account Setup

Once you have received all of your VDO RoadLog equipment, please go to www.vdoroadlog.com/signup/ to purchase Activation Licenses, register your account, and setup the VDO RoadLog Solo portal for operation.
